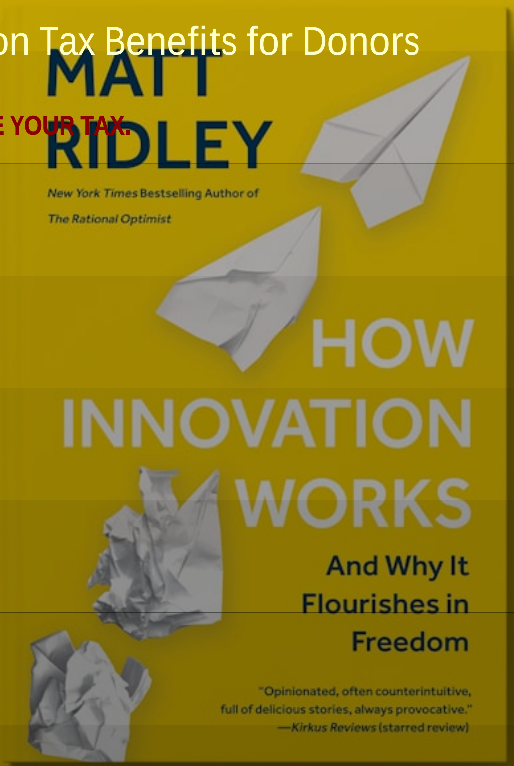
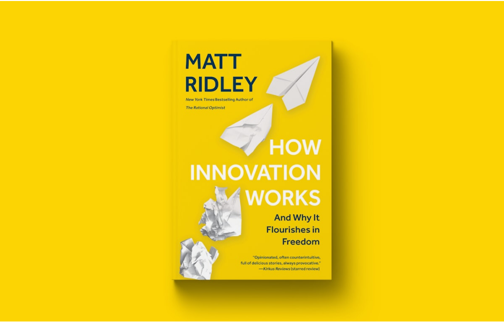
TAX DEDUCTIBILITY GUIDE

Jurisdiction-by-Jurisdiction Tax Benefits for Donors

MAXIMISE YOUR IMPACT. MINIMISE YOUR TAX.



TAX DEDUCTIBILITY OVERVIEW



Legal structure across three jurisdictions ensures global tax deductibility. Image: Unsplash

The University of Artemis is incorporated across three jurisdictions to maximise tax benefits for donors worldwide. The primary entity is a Delaware Non-Stock Corporation with 501(c)(3) classification, providing full tax deductibility for US donors. The secondary entity in England and Wales enables Gift Aid (25% government top-up) for UK donors. The tertiary entity in Switzerland provides endowment management in a tax-efficient neutral jurisdiction. Donors in most countries can benefit from at least one of these structures, and the advancement team works with each donor to identify the optimal giving vehicle for their jurisdiction and tax situation.

UNITED STATES: 501(c)(3) DEDUCTIBILITY

The University of Artemis is incorporated as a Delaware Non-Stock Corporation and has filed IRS Form 1023 for 501(c)(3) determination. Under US tax law, donations to 501(c)(3) organisations are tax-deductible to the fullest extent allowed by law. Individual donors can deduct up to 60% of adjusted gross income (AGI) for cash gifts and 30% of AGI for appreciated property. Corporate donors can deduct up to 10% of taxable income. The 501(c)(3) status provides retroactive deductibility within 27 months of incorporation, meaning gifts made before the determination letter is issued are still deductible.

Feature	Detail
Entity Type	Delaware Non-Stock Corporation
Tax Classification	501(c)(3) - Educational & Charitable
Cash Gift Limit	60% of AGI for individuals; 10% for corporations
Property Gift Limit	30% of AGI (fair market value)
Retroactive Deductibility	Within 27 months of incorporation
EIN Available	Yes - provided upon gift acknowledgement
Gift Acknowledgement	Written acknowledgement for all gifts over $250

UNITED KINGDOM: GIFT AID

The University of Artemis is establishing a Charitable Incorporated Organisation (CIO) in England and Wales, registered with the Charity Commission under the advancement of education. UK donors receive full tax relief on gifts, and Gift Aid adds 25% to every eligible donation through HMRC top-up. A UK donor giving GBP 100,000 results in the university receiving GBP 125,000. Higher-rate taxpayers can claim an additional 25% personal tax relief, making the net cost of a GBP 100,000 gift only GBP 62,500 for a 45% taxpayer. The CIO structure is recognised by Commonwealth jurisdictions worldwide, extending tax benefits to donors in Canada, Australia, New Zealand, and other Commonwealth nations through reciprocal tax treaties.

Feature	Detail
Entity Type	CIO (Charitable Incorporated Organisation)
Regulator	Charity Commission for England & Wales
Gift Aid Top-Up	25% from HMRC on eligible donations
Higher Rate Relief	Additional 20-25% personal tax relief
Commonwealth Recognition	Reciprocal tax treaties with Canada, Australia, NZ
Gift of Shares	Full income tax relief + no CGT

SWITZERLAND: FONDATION STRUCTURE

The Swiss Fondation under the Geneva Canton provides endowment management in a neutral, tax-efficient jurisdiction. Switzerland is home to WHO, CERN, IOC, and over 4,000 international organisations. The Fondation structure offers no capital gains tax on endowment growth, minimal income tax on investment returns, and strong governance oversight through the Swiss foundation supervision authority. For European and Gulf donors, the Swiss entity provides a familiar and trusted structure that signals institutional permanence and financial probity. Donations to Swiss charitable foundations are tax-deductible in Switzerland and in many European jurisdictions through bilateral tax treaties.

Feature	Detail
Entity Type	Fondation under Swiss Civil Code
Canton	Geneva
Minimum Capital	CHF 50,000
Capital Gains Tax	None on endowment growth
Supervision	Cantonal authority and Swiss foundation supervision

OTHER JURISDICTIONS & FISCAL SPONSORSHIP

For donors in jurisdictions where direct deductibility is not yet available, the University of Artemis works with fiscal sponsors to enable tax-efficient giving. Rockefeller Philanthropy Advisors, NGOsource, and Global Impact provide equivalency determinations that enable donors in over 80 countries to receive local tax benefits for gifts to Artemis. The advancement team manages all documentation and can facilitate gifts in any currency, through any legal structure, and in compliance with local regulations. For donors in the EU, the Transnational Giving Europe (TGE) network provides a streamlined mechanism for cross-border charitable giving with full tax deductibility in the donor's country of residence.

Jurisdiction	Mechanism	Key Benefit
Canada	Reciprocal treaty via UK CIO	Full charitable deduction
Australia	Reciprocal treaty via UK CIO	Deductible gift recipient status
EU Countries	Transnational Giving Europe	Full deductibility in donor's country
Gulf States	Swiss Fondation	No tax on gifts; neutral jurisdiction
Other (80+ countries)	Fiscal sponsorship (NGOsource)	Equivalency determination for local tax benefit

Contact the advancement team at donate@artemisui.org for jurisdiction-specific guidance. We work with your legal and tax advisors to structure your gift for maximum impact and maximum tax efficiency.
