
NAMING OPPORTUNITIES

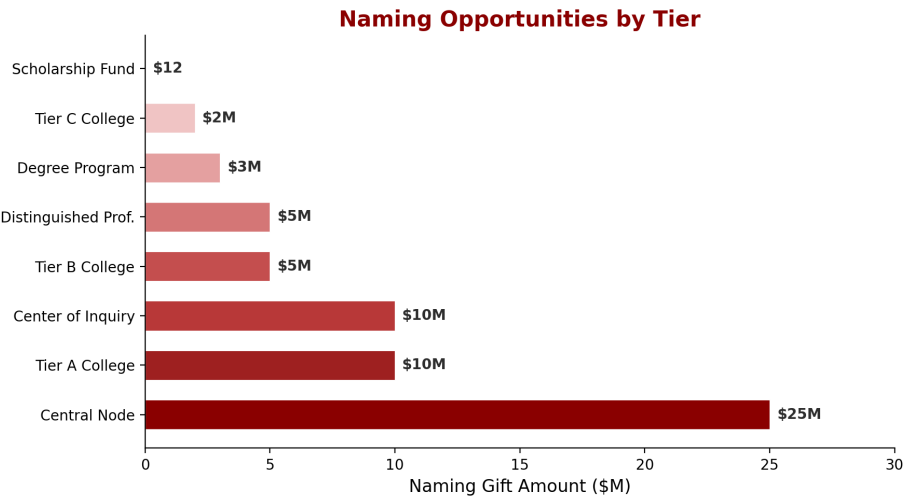

Permanent Legacy. Enduring Impact.

YOUR NAME. A UNIVERSITY. FOREVER.

NAMING AT ARTEMIS

Every naming opportunity at the University of Artemis is permanent. Your name does not grace a building for 20 years — it becomes part of the institution's foundation for as long as the university exists. Named gifts are endowments: the asset (property, position, program) generates value in perpetuity, and your name is inseparable from that value. This booklet details every naming opportunity available during the founding campaign, from the apex — a Central Node at \$25M — to the most personal: a student scholarship at \$12,000.

Naming opportunities by tier and amount.

CENTRAL NODE \$25,000,000

Venice Central Node. Image: Unsplash

The apex of the Artemis network. Name one of three Central Nodes — Venice, San Francisco, or Singapore — and your name becomes synonymous with the university's global presence. Each Central Node serves approximately 5,000 students and functions as the administrative, research, and cultural hub for its region. The Venice Central Node houses the founding document and the headquarters of the Board of Trustees. The San Francisco Central Node is the innovation and technology hub, home to the Global Challenge Fund and the digital infrastructure team. The Singapore Central Node is the admissions and research gateway for Asia-Pacific.

Your named Central Node carries your name in perpetuity — on the building, in all university communications, in every degree certificate issued from the node, and in the founding charter. Only three Central Nodes exist. Only three names will be inscribed at this level. This is the most significant naming opportunity outside of founding the university itself. Central Node naming gifts qualify for the Founders' Circle, the highest tier of recognition, which includes a permanent seat on the Board of Visitors and an annual private dinner with the President.

TIER A COLLEGE \$10,000,000

Major global cities host Tier A Colleges. Image: Unsplash

Name a flagship College in the world's great knowledge capitals: London, Paris, Tokyo, Berlin, Nairobi, Sao Paulo, and similar cities. Tier A Colleges serve approximately 2,500 students in purpose-renovated buildings that serve as landmarks in their cities. Your name is permanently associated with a flagship institution that will educate tens of thousands of students over the coming decades and produce research that shapes the world. Tier A College naming gifts qualify for the Guardians' Circle, with recognition at all 50 Colleges and an annual private briefing with the President.

CENTER OF INQUIRY \$10,000,000

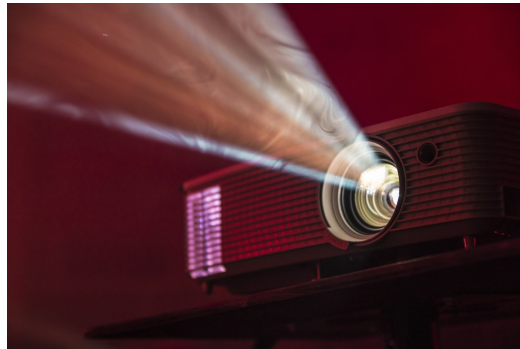

Research is at the heart of every great university. Image: Unsplash

Name one of 19 Centers of Inquiry a permanently endowed, independently operating research centre carrying your name. Centers of Inquiry are the intellectual engines of the university, each focused on a specific domain of inquiry (from the Ethics of Emerging Technology to the Geometry of Social Systems). Each Center has a director, a research team, and an active portfolio of projects. Your named Center produces research that is released under open-access terms within 7 years, ensuring that your gift contributes not just to the university but to global knowledge. Center naming gifts qualify for the Guardians' Circle.

TIER B COLLEGE \$5,000,000

Name a College in major global cities. Tier B Colleges serve approximately 2,000 students in substantial, permanent buildings. These are the backbone of the Artemis network – the Colleges that make the global rotation model possible by providing high-quality residential and tutorial spaces in key cities. Tier B College naming gifts qualify for the Builders' Circle, with a recognition plaque at all 50 Colleges and an annual impact report on your named College.

DISTINGUISHED PROFESSORSHIP \$5,000,000

Faculty are the heart of any university. Image: Unsplash

Endow a faculty position in perpetuity. At 4.5% yield, a \$5M Distinguished Professorship generates \$225,000 per year – enough to sustain one position at career-level compensation forever. The naming gift is an endowment, not a sponsorship: the principal is preserved, and the yield funds the position. Your named professorship will attract world-class scholars, produce groundbreaking research, and teach thousands of students through the tutorial system. Distinguished Professorship naming gifts qualify for the Builders' Circle.

DEGREE PROGRAM \$3,000,000

Name one of 55 degree programs at the University of Artemis. Your name is associated with a specific discipline and every graduate who carries it forward. Whether it's the John Smith Programme in Computational Thinking or the Chen Wei Programme in Global Systems, your name becomes synonymous with excellence in that field. Degree program naming gifts are endowments: the principal generates yield that supports the program in perpetuity, ensuring that your named program continues to attract the best students and produce the most impactful research.

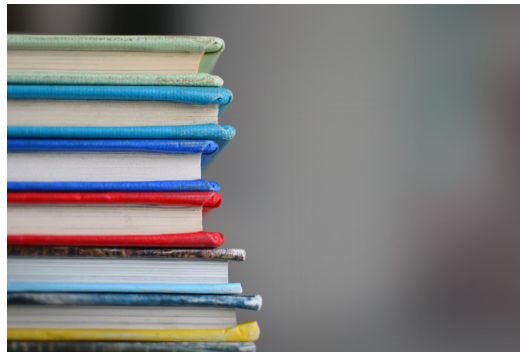

TIER C COLLEGE \$2,000,000

Emerging cities like Kigali host Tier C Colleges. Image: Unsplash

Name a College in cities like Kigali, Dhaka, Kampala, Karachi, and similar emerging knowledge centres. Tier C Colleges serve approximately 1,100 students and represent the university's commitment to bringing world-class education to the places that need it most. Your name becomes home to the next generation of leaders in your region. Tier C College naming gifts qualify for the Builders' Circle, with a recognition plaque at all 50 Colleges and an annual Builder's Report detailing the impact of your named gift.

SCHOLARSHIP FUND \$12,000

Every scholarship changes a life permanently. Image: Unsplash

Fund one student's full scholarship for four years. At \$3,000/year, the total cost is \$12,000. This is the most direct way to change a life and the most personal naming opportunity at Artemis. Your scholarship fund carries your name (or a name you designate) and is awarded to a specific student who will know that their education was made possible by your generosity. Scholarship donors receive the name and story of their scholarship recipient (with the student's consent), creating a direct connection between your gift and its impact.

NAMING OPPORTUNITIES SUMMARY

Opportunity	Amount	Giving Circle	Perpetuity
Central Node	\$25M	Founders' Circle	Named building + charter inscription
Tier A College	\$10M	Guardians' Circle	Named building
Center of Inquiry	\$10M	Guardians' Circle	Named research centre
Tier B College	\$5M	Builders' Circle	Named building
Distinguished Prof.	\$5M	Builders' Circle	Endowed position
Degree Program	\$3M	Builders' Circle	Named academic program
Tier C College	\$2M	Builders' Circle	Named building
Scholarship Fund	\$12K	The 99 / Friends	4-year named scholarship
